

Visy's fascinating planning transformation: Boosting profitability and professional confidence

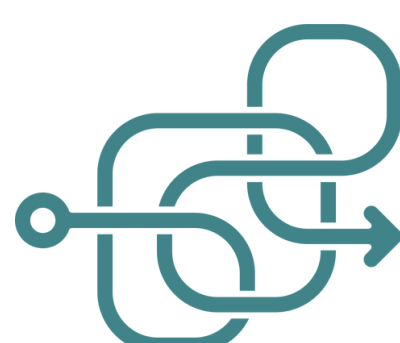

Visy undertook a comprehensive digital transformation of its supply chain. With OMP's Unison Planning™, the Australian paper and packaging giant **cut costs, improved service levels, reduced inventories and enhanced overall efficiency.**

The journey proved **a real financial success.** And not just that: it also greatly increased the confidence of Visy's supply chain professionals, affirming their ability to contribute effectively to the company's success.

Challenges

Reconciling a **steady paper supply** with **volatile packaging demand.**

Keeping **inventory levels under control** and **optimizing paper storage** locations and footprints.

Preventing transportation costs from **eroding margins** and **weakening service levels.**

"OMP is grounded in the realities of the paper and packaging industry, and they are achieving significant success with major names."

Stuart Rowe
Planning Process and Systems Lead at Visy

Visy selected OMP's Unison Planning™ because it wanted an **all-encompassing planning tool** for its extremely complex supply chain, one that provides **algorithmic richness and a solid track record in the paper and packaging industry**. Project goals were met and even exceeded through exceptional team work from both Visy and OMP.

Real solutions

- Unison Planning™ unifies monthly S&OP planning, daily production planning and scheduling, and transport planning.
- Company-specific rules for inventory, campaigns, raw material intake, and transport.
